

## **USER MANUAL**

**iQDRY360**

### **Refillable Moisture Absorber**

Thank you for choosing electriQ.

Please read this user manual before using this dehumidifier  
and keep it safe for future reference.

Visit our page [www.electriQ.co.uk](http://www.electriQ.co.uk) for our entire range of Intelligent Electricals

## THANK YOU FOR YOUR PURCHASE.

The iQDRY360 dehumidifier does not need any power to operate allowing it to be used in indoor areas where other dehumidifiers would not be suitable such as drawers, cupboards, storage boxes, cars, caravans, boats etc. The dehumidifier contains beads which use a natural process to absorb excess moisture from the air and transfer it to the built in 1 litre water tank. It can extract upto 100ml per day and is suitable for spaces upto 10m<sup>2</sup>.

## HOW TO USE:

1. Twist the top to remove from the dehumidifier
2. Twist the lid of the bead chamber to remove.
3. Open the sachet of moisture absorbent beads and fill the bead chamber within the dehumidifier.
4. Replace the lid on the bead chamber.
5. Replace the top on the dehumidifier and in position within the environment to dry.
6. Regularly check the water level.  
TO EMPTY: Remove the bead chamber and empty the water tank into a drain or toilet.
7. The beads will last for approximately 45 days, and can easily be topped up using the same process. The beads should be topped up regularly to maintain performance.

## BEAD REFILLS

Refill sachets are available from the same retailer as the dehumidifier, under the reference: iQDRY360-REFILL. Once opened the sachets of refills must be kept in a sealed container to protect them from moisture in the atmosphere.

## SAFETY PRECAUTIONS:

- Not to be used or maintained by children. Keep out of the reach of children and pets.
- Ensure that any unused beads are kept in a labelled sealed container, out of reach of children or pets.
- Do not touch the beads, avoid contact with skin and eyes.
- The water collected by the unit must not be reused for any purpose and should be disposed of down a drain or toilet.
